

## APPLICATIONS OF THE VACUUM PUMPS

	high vacuum $10^{-7} \div 10^{-3}$ hPa	medium vacuum $10^{-3} \div 1$ hPa	rough vacuum $1 \div 1000$ hPa	overpressure $0 \div 0,1$ MPa
Oil-free compressors A range				_____
Oil-free pumps A...P range			_____	
Rotary vane oil sealed pumps AT / A range			_____	
Rotary vane oil sealed pumps AL, AW range		_____	_____	
Rotary vane oil sealed pumps BL,BW,BWC range		_____	_____	
Roots pumps PR range		_____	_____	
Diffusion pumps PDO range	_____			

- \_\_\_\_\_ solid line denotes continuous operation without any limits
- \_\_\_\_\_ dotted line denotes intermittent operation limited to a few minutes
